1)
```java
public class commandline Argument
{
        public static void
main (string[] args) {
        int a =
Integer parseInt (args[0]);
        Int b =
Integer.parseInt (args[1]);
        int sum = a+b;
        system.out.println(" sum is "+sum
        }
    }.
```
